In my search for an optimal 400-450-engined travel bike that isn't a CCM450 I remembered the Honda CB400 SS grey imports I'd seen on ebay. These Japan-only SOHC 400cc singles from the Noughties (about 2002-2009) look very similar to the Chinese Shineray-built 400 retros (branded 'Mash' in the UK) which I rode a couple of weeks ago and which...

A definitive treatise on the code of the samurai--revised and with a new introduction Upholding the samurai code both on and off the battlefield is one of the essential tenets of bushidō, the Way of the Warrior--and Budōshoshinshu is a definitive treatise on living in accordance with the samurai code. When it comes to books on samurai philosophy, the Edo-period classic Hagakure is iconic to contemporary readers, but Budōshoshinshu, which was written during same period, was equally influential at the time. Many scholars consider Hagakure, which was influenced by Zen, to be the most radical and romantic of samurai texts, while Budōshoshinshu is more measured and practical, owing to its heavy Confucian influence. Taken in tandem, they provide a range of insights on the role of the individual within the samurai order--both addressing the warrior's role in times of peace and emphasizing the importance of living selflessly. Written by Daidoji Yūzan, a Confucian scholar who descended from a long line of prominent warriors, Budōshoshinshu comprises 56 pithy instructive essays for young samurai on how to live morally, with professional integrity and a higher purpose, and to carry on the true chivalrous tradition of bushidō. Budōshoshinshu is imbued with classic Confucian philosophy, centered on living one's life with sincerity and loyalty.

A New York Review Books Original Hav is like no place on earth. Rumored to be the site of Troy, captured during the crusades and recaptured by Saladin, visited by Tolstoy, Hitler, Grace Kelly, and Princess Diana, this Mediterranean city-state is home to several architectural marvels and an annual rooftop race that is a feat of athleticism and insanity. As Jan Morris guides us through the corridors and quarters of Hav, we hear the mingling of Italian, Russian, and Arabic in its markets, delight in its famous snow raspberries, and meet the denizens of its casinos and cafés. When Morris published Last Letters from Hav in 1985, it was short-listed for the Booker Prize. Here it is joined by Hav of the Myrmidons, a sequel that brings the story up-to-date. Twenty-first-century Hav is nearly unrecognizable. Sanitized and monetized, it is ruled by a group of fanatics who have rewritten its history to reflect their own blinkered view of the past. Morris's only novel is dazzlingly sui-generis, part erudite travel memoir, part speculative fiction, part cautionary political tale. It transports the reader to an extraordinary place that never was, but could well be.
